Types of مَفعُول

Sentence in Arabic: Introduction Test

- Recall the overall picture:

Sentence in Arabic: Introduction

There are two type of sentences in Arabic Language:

i. The Nominal Sentence (Noun-based) الْجُمْلَةُ الاسْمِيَّة If a sentence begins with an إِسْم (few exception are there)

ii. The verbal Sentence (Verb-based) الْجُمْلَةُ الفِعْلِيَّةُ If a sentence begins with a فِعْل (no exception to this rule)

This section we will study الْجُمْلَةُ الاسْمِيَّة or Noun-based Sentence

Fragment and Sentence

- A group of words may form a fragment or sentence. If it is not a fragment then it must be a sentence.
- So, it is important to first check if it is fragment. Recall in all fragments, words are connected or related. So far we know, there are 5 fragments:
  i. Harf of Jar حَرْفُ الْجَرِّ **Example:** مِن شَرِّ
  ii. harf of Nasb حرف النصب **Example:** إِنَّ ٱللَّهَ
  iii. Mudaf مُضَاف and Mudaf Elaihi مُضَاف إِليه **Example:** رَبِّ الْعَالَمِينَ Lord OF the worlds. (Mudaf will have No ال and it must be light and Mudaf Elaihi will be a Jar)
  iv. Mousoof مَوْصُوف and Sifa صِفَة **Example:** الصِّرَاطَ الْمُسْتَقِيمَ The Straight Path (Both must have exactly same 4 properties)
  v. Pointers **Example:** ذَلِكَ الْكِتَابُ That book. (the use of ال makes it a fragment)

Fragment and Sentence

i. Harf of Jar حَرْفُ الْجَرِّ
ii. harf of Nasb حرف النصب
iii. **Mudaf مُضَاف and Mudaf Elaihi مُضَاف إليه**
iv. **Mousoof مَوْصُوف and Sifa صِفَة**
v. Pointers

So, above are the 5 ways two words can be glued together. Out of them, **iii) Mudaf and Mudaf Ealihi and iv) Mousoof Sifa** need to be checked since remaining options are easily identified by their corresponding particles.

Sentence in Arabic: Introduction

- There are basically 2 **invisible words** in Arabic: "**OF**" and "**IS**" (be verb). OF has been covered in مُضَاف and مُضَاف إِليه
- Here we will cover **invisible "IS"** (i.e. AM, ARE). The Golden Rule to detect this invisible "IS" is as follows:

Rule for Detecting Invisible "IS"

As soon as we find two words that are not a part of one of the mentioned 5 relationships, we have a **break in the chain** which introduces an **invisible "IS"**.

In other words, when we get two words side by side and they are not fragments in any way, then there must an invisible "IS" between them.

Example 1

- اللَّهُ أَكْبَرُ these two words are not fragments by i), ii) and v) because there is no appropriate particle for that. So, we need to check iii) and iv) only.
  a) Not a مُضَاف and مُضَاف إِلَيه since the second word (i.e. as مُضَاف إِلَيه) أَكْبَرُ is not a مَجْرُورٌ
  b) Not a مَوْصُوف and صِفَة because they do not have exactly same 4 properties.
  اللَّهُ ⟶ R/1/M/P while أَكْبَرُ ⟶ R/1/M/C

So, there is an invisible "IS" between them, اللَّهُ أَكْبَرُ ⟶ Allah (IS) the greatest.

Example 2

- الْحَمْدُ لِلَّهِ these two words are not fragments by i), ii) and v) because there is no appropriate particle for that. So, we need to check iii) and iv) only.
  a) Not a مُضَاف and مُضَاف إِليه since the first word (i.e. as مُضَاف) الْحَمْدُ has an ال on it. (recall the conditions of Mudaf)
  b) Not a مَوْصُوف and صِفَة because they do not have exactly same 4 properties.
  الْحَمْدُ is مَرْفُوعٌ while لِلَّهِ is مَجْرُورٌ

So, there is an invisible "IS" between them, الْحَمْدُ لِلَّهِ ⟶ All praise (IS) for Allah.

Example 3

- إِنَّ الْإِنسَانَ لَفِي خُسْرٍ
  a) إِنَّ الْإِنسَانَ ⟶ Inna is a حرف النصب , Together it is a حرف النصب and its victim.
  b) لَفِي خُسْرٍ ⟶ La is emphasis particle فِ is a Harf of Jar, Together it is a حَرْفُ الْجَرّ and its victim

  As there is a break of chain between these fragments, so there is an invisible "IS"

  لَفِي خُسْرٍ (IS) إِنَّ الْإِنسَانَ ⟶ **Indeed every human** "IS" **in loss**.

Example 4

- إِنَّ اللَّهَ عَلَىٰ كُلِّ شَيْءٍ قَدِيرٌ
  a) إِنَّ اللَّهَ ⟶ إِنَّ is a حرف النصب , so these 2 words are connected together. (Indeed Allah)
  b) عَلَىٰ كُلِّ شَيْءٍ ⟶ عَلَىٰ is a حَرْفُ الْجَرِّ , so next word كُلِّ is مَجْرُورٌ . Again, كُلِّ شَيْءٍ is connected as مُضَاف and مُضَاف إليه (every kind OF thing=>each thing).
  These 3 words are connected together.
  c) قَدِيرٌ ⟶ (able to do) it is a مَرْفُوعٌ and there is **a break in the chain**. It seems unrelated to its previous fragments.
  d) Before that, we detect **another break in chain** between إِنَّ اللَّهَ and عَلَىٰ كُلِّ شَيْءٍ
  e) When we detect multiple break of chain, the rule is: **replace the first break by "IS" and ignore others**.
  f) قَدِيرٌ **break2** عَلَىٰ كُلِّ شَيْءٍ **break1** إِنَّ اللَّهَ → قَدِيرٌ ~~break2~~ عَلَىٰ كُلِّ شَيْءٍ (IS) إِنَّ اللَّهَ
  g) As a result the meanings becomes:
  Indeed Allah (IS) one each thing capable.

الجُمْلَةُ الاسْمِيَّة: Detection Methods

Here we will study a number of techniques to detection of the invisible "is" in Noun-based Sentence:

1. After independent pronoun
2. After حرف النصب and its victim
3. After Pointers without article "the" ال
4. Proper إِسْم followed by Common إِسْم
5. When there is a **break** in the chain (we have already covered it up) ✓

الْجُمْلَةُ الاسْمِيَّة: Detection Method 1: Independent Pronoun

a) Independent pronouns are followed by an invisible 'is'. They usually appear at the very beginning of the sentence.

b) If the pronoun is followed by an إِسْم then both must match in number and gender.

Example:

- هُوَ الْغَفُورُ الرَّحِيمُ **He (is)** the most forgiving and most merciful.
- نَحْنُ أَوْلِيَآؤُكُمْ **We (are)** your allies.

Trick: It is quite helpful the remember the meanings of the Independent Pronouns as follows:

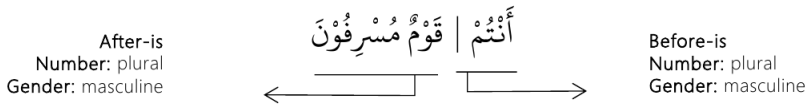

Pronoun	Meaning
أَنَا	I am
نَحْنُ	We are
أَنْتُمْ	You (all) are
هُوَ	He is

الْجُمْلَةُ الاسْمِيَّة: Detection Method 1 (Cont.): Independent Pronoun

a) Independent pronouns are followed by an invisible "is". They usually appear at the very beginning of the sentence.

b) If the pronoun is followed by an إِسْم then both must match in number and gender.

Example:

You all are an extravagant nation.

He is Allah.

الْجُمْلَةُ الاسْمِيَّة: Detection Method 2: After حرف النصب

a) A حرف النصب along with an إِسْم followed by an invisible "IS"

Example:

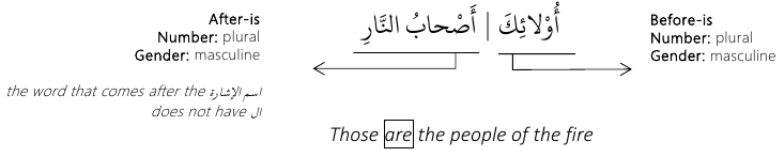

- إِنَّ الْإِنسَانَ لَفِي خُسْرٍ **Indeed human (IS)** in loss.
- وَلَـٰكِنَّ ٱلْبِرَّ **and however the goodness (IS)**
- إِنَّ الْمُتَّقِينَ **certainly the pious (ARE)**
- إِنَّ اللَّهَ مَعَ الصَّابِرِينَ **Certainly Allah (IS)** with those who are patient. 2:153

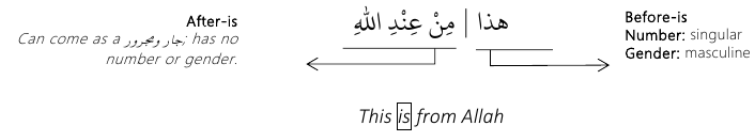

الجُمْلَةُ الاسْمِيَّة: Detection Method 3: After Pointers

a) There is an invisible "IS" after a pointer if the word (i.e. إِسْم) after it **does not have an** ال on it.

b) If it is a pair of pointer and إِسْم then, both إِسْم must match number and gender.

Example:

الْجُمْلَةُ الاسْمِيَّة: Detection Method 3: After Pointers (Cont.)

a) There is an invisible "IS" after a pointer if the word (i.e. إِسْم) after it **does not have an** ال on it.

b) If it is a pair of pointer and إِسْم then, both إِسْم must match number and gender.

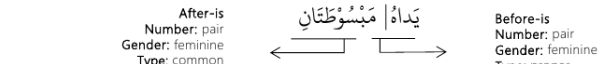

More Examples:

- أُو۟لَٰٓئِكَ عَلَىٰ هُدًى مِّن رَّبِّهِمْ **Those (ARE)** the people who are truly guided and successful. 2:5 NOTE: it is NOT a pointer and إِسْم pair.
- هَٰذِهِۦ جَهَنَّمُ ٱلَّتِى يُكَذِّبُ بِهَا ٱلْمُجْرِمُونَ **This (IS) Hell**, which the criminals deny. 55:43 NOTE: it is a pointer and إِسْم pair.Both are Singular and Feminine.

الْجُمْلَةُ الاسْمِيَّة: Detection Method 4: Proper Noun followed by Common Noun

a) When a proper word is followed directly by a common word, an "IS" goes between them.
b) The two words usually match in number and gender.
c) Motivating Example in English: **Abdul Karim(P) a teacher (C) → Abdul Karim (IS) a teacher.**

Example:

His (2) hands are extended.

وَاللّٰهُ | واسِعٌ عَلِيْمٌ

And Allah is all-encompassing and all-knowing

الْجُمْلَةُ الاسْمِيَّة: Detection Method 5: Break in the chain

Already covered up.

الجُمْلَةُ الاسْمِيَّة: Grammartical Labeling

Grammatical labeling is termed as إعراب. There are 2 layers of labeling:

1. Fragment-level labels also known as micro إعراب ✓
2. **Sentence-level labels also known as macro إعراب**

Sentence-level Labels

A الْجُمْلَةُ الاسْمِيَّة has three parts:

1. مُبتَدَأْ Early Subject It is the part before "IS". It is either مَرْفُوعٌ **or** حرف النصب **and its victim**. It is made up of a single إِسْم or إِسْم + إِسْم fragment. It is an essential part. It is normally A Proper Noun i.e. مَعْرِفَة
2. خَبَرْ Late Subject It is the part after "IS". It is **always** مَرْفُوعٌ . It is made up of a single إِسْم or إِسْم + إِسْم fragment.
3. مُتَعَلِّق بِا لخَبرَ It is additional part after "IS". It is made up of a جار و مَجرُور or a **special** مُضَاف

Tips: If we get two مَرْفُوعٌ equivalently one حرف النصب +Victim and one مَرْفُوعٌ then, the first one is the مُبتَدَأْ and the second one is the خَبَرْ . And they are not connected fragments like صِفَة and مَوْصُوف

Sentence-level Labeling: Summary

Example: إِنَّ الْإِنسَانَ لِرَبِّهِ لَكَنُودٌ Indeed mankind, to his Lord, is ungrateful. 100:6

Sentence-level Labeling: Summary

Example: إِنَّ الْإِنسَانَ لِرَبِّهِ لَكَنُودٌ Indeed mankind, to his Lord, is ungrateful. 100:6

مُبْتَدَأ	مُتَعَلِّق بِا لخَبَرَ	خَبَرْ
مَرْفُوعٌ or حرف النصب +victim	جار و مَجرُور	مَرْفُوعٌ
إِنَّ الْإِنسَانَ	لِرَبِّهِ	لَكَنُودٌ

Sentence-level Labels: Example

Example: إِنَّ رَسُولَ اللَّهِ كَرِيمٌ Surely the messenger of Allah is noble

Sentence-level Labels: Example

Example: إِنَّ رَسُولَ اللَّهِ كَرِيمٌ Surely the messenger of Allah is noble

- إِنَّ رَسُولَ اللَّهِ إِنَّ is a حرف النصب so the next إِسْم is مَنْصُوبٌ but next two nouns are a fragment because of Idafa. Ans these 3 words are connected and considered as a single unit. It forms a حرف النصب and its victim. So, it must be the مُبتَدَأْ

Sentence-level Labels: Example

Example: إِنَّ رَسُولَ اللَّهِ كَرِيمٌ Surely the messenger of Allah is noble

- كَرِيمٌ is مَرْفُوعٌ , when we get 2 مَرْفُوعٌ or equivalent then the 2nd one must be the خَبَرْ

Sentence-level Labels: Example

Sentence-level Labels: Examples from Dream Text Book

وَهُوَ خَيْرُ الحاكِمِيْنَ

إِنَّ أَبانا لَفِيْ ضَلالٍ مُبِيْنٍ

Certainly our father is in clear error

الْجُمْلَةُ الاسْمِيَّة Sequence of Labels

- Normal or Standard Sequence of a Noun-based Sentence is:

مُبتَدَأْ ⟵ (M)	خَبَرْ ⟵ (K)	مُتَعَلِّق بِا لخَبرَ (MBK)

✓ **Example:** Allah is All-Seer about/for/of His slaves (3:15)

اللَّهُ	بَصِيرٌ	بِالْعِبَادِ

- When this normal sequence is broken (i.e. **Abnormal Sequence**) the base meaning is not changed but the shade of meaning is altered.
- There are 4 reasons to break the normal sequence. One of them is to **attach exclusivity (i.e. only)**
- Two Terms: i) when something appears before it is expected to, it is labeled as مُقَدَّم **or "brought forward"**. ii) When something appears after it is expected to, it is labeled as مُؤَخَّر **or "delayed"**. It occurs as pair.

الجُمْلَةُ الاسْمِيَّة Abnormal Sequence: Example

- "To Allah is the final return." (3:28)
- The normal sequence would be like:

مُبتَدَأْ	مُتَعَلِّق بِا لخَبرَ
وَ الْمَصِيرُ	إِلَى اللَّهِ

- But اَلْقُرْءَان says:

مُبتَدَأْ	مُتَعَلِّق بِا لخَبرَ
الْمَصِيرُ	وَ إِلَى اللَّهِ

✓ So, it is an abnormal sequence, which should be translated as: "Only to Allah is the final return."

الْجُمْلَةُ الاسْمِيَّة Abnormal Sequence: Example

- For Him is the dominion of the heavens and earth. 57:2
- The normal sequence would be like:

لَهُ	مُلْكُ السَّمَاوَاتِ وَالْأَرْضِ

- But اَلْقُرْءَان says:

مُلْكُ السَّمَاوَاتِ وَالْأَرْضِ	لَهُ

✓ So, it is an abnormal sequence, which should be translated as:
Only for Him is the dominion of the heavens and earth.

الْجُمْلَةُ الاسْمِيَّة Abnormal Sequence: Example

- they are in heedlessness turning away 21:1
- The normal sequence would be like:

فِي غَفْلَةٍ	مُّعْرِضُونَ	وَهُمْ
(they ignore as they are unaware)	(deliberately ignore)	(and they)

- But ٱلْقُرْءَان says:

مُّعْرِضُونَ	فِي غَفْلَةٍ	وَهُمْ

✓ So, it is an abnormal sequence, which should be translated as:
they are **absolutely** in heedlessness turning away

الْجُمْلَةُ الاسْمِيَّة Abnormal Sequence: Example

- And indeed, Allah is to you Kind and Merciful. 57:9
- The normal sequence would be like:

وَإِنَّ اللَّهَ	لَرَءُوفٌ	رَّحِيمٌ	بِكُمْ
(Indeed, Allah is)	(kind)	(merciful)	(to you)

- But ٱلْقُرْءَان says:

وَإِنَّ اللَّهَ	بِكُمْ	لَرَءُوفٌ	رَّحِيمٌ

✓ So, it is an abnormal sequence, which should be translated as:
And indeed, Allah is **exclusively/specially** Kind and Merciful to you.

[1] Multiple Labels are found

الجُمْلَةُ الاسْمِيَّة Abnormal Sequence: Example

- with Him is the mother of the Book 13:39
- The normal sequence would be like: .

عِندَهُ	وَ أُمُّ الْكِتَابِ
(belongs to him)	(the mother of book)

- **Note:** أُمُّ الْكِتَابِ is an الإضافَة where أُمُّ is a مَرْفُوعٌ as a result the fragment together is a مَرْفُوعٌ . And the first مَرْفُوعٌ must be an مُبتَدَأ
- **But** ٱلْقُرْءَان says:

وَ أُمُّ الْكِتَابِ	عِندَهُ

✓ So, it is an abnormal sequence, which should be translated as:
Only with Him is the mother of the Book

Abnormal Sequence Example

Example: 15:9 (part)

وَإِنَّا لَهُ لَحَافِظُونَ and We Ourself will guard it.

وَإِنَّا	لَهُ	لَحَافِظُونَ
and surely we	of it(Quran)	Surely Guardian

✓ So, it is an abnormal sequence, which should be translated as:
Surely it is we will be its guardian.

Summary of Abnormal Sequence

- So far we have seen a number of examples where the sequence of Labels are Abnormal.
- This Abnormal Sequence results in Exclusivity in the meaning.
- **The rule for exclusivity is applicable only when the مُبتَدَأْ is Proper** or مَعرِفَة . In all shown examples they are Proper. Recall **Independent Pronouns are always proper and** مَرْفُوعٌ .
- **Consequently**, if the مُبتَدَأْ is Common or نَكِرَة then the Abnormal Sequence is the standard sequence and does not demand exclusivity.

Abnormal Sequence is Normal: Example

- Recall: if the مُبتَدَأْ is Common or نَكِرَة then the Abnormal Sequence is the standard sequence and does not demand exclusivity.

هُدًى	فِيهِ

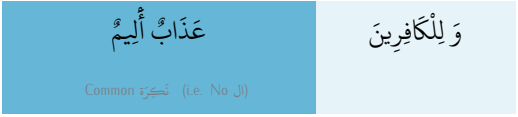

- Note here هُدًى is the مُبتَدَأْ and it is Common نَكِرَة (i.e. No ال)
- Translation should be:
  There is guidance in it (No Only)

Abnormal Sequence is Normal: Example

- Note here مَرَضٌ is the مُبتَدَأْ and it is Common نَكِرَة (i.e. No ال)
- Translation should be:
  There is a disease in their hearts (No Only)

Abnormal Sequence is Normal: Example

- Note: here عَذَابٌ أَلِيمٌ is a مَوْصُوف and صِفَة pair and the fragment is a مَرْفُوعٌ . And it must be the مُبتَدَأْ
- The مُبتَدَأْ is Common نَكِرَة (i.e. No ال)
- Translation should be:
  There is a painful punishment for the disbelievers (**No Only**)

Complex Sentence

- There are 3 Labels in a Noun-based Sentence
  i. مُبتَدَأْ
  ii. خَبَرْ
  iii. مُتَعَلِّق بِا لخَبرَ
- Among them خَبَرْ deserves special attention **because**:
  it can hold a FULL SENTENCE within it. It can carry both Noun-based and Verb-based Sentences We will not discuss Verb-based sentence in details here.

[1] Dream Text Book page 70

Complex Sentence: خَبَرْ Classification

There are 3 Types of خَبَرْ

i. Simple Khabar or خَبَرَ مُفرَد : It is formed by one word or more (fragments)

Example: مُحَمَّدٌ رَّسُولُ اللَّهِ Muhammad is the messenger of Allah (48:29)

ii. Complex Khabar I خَبَرْ الْجُمْلَةُ الاسْمِيَّة An entire sentence can work like a خَبَرْ

Example: إِنَّ اللَّهَ هُوَ الرَّزَّاقُ Indeed, it is Allah who is the [continual] Provider (51:58)

iii. Complex Khabar II: Verbal Sentence خَبَرْ (will do later)

Example: إِنَّ اللَّهَ لَا يُخْلِفُ الْمِيعَادَ Allah does not fail in His promise. (3:9)

[1] Dream Text Book page 70

Complex Sentence: Multiple مُبتَدَأْ

- Since a خَبَرْ can be an entire sentence (where there must be a مُبتَدَأْ), it means there may be multiple مُبتَدَأْ
- Consequently, multiple مُبتَدَأْ point to same entity
- Multiple مُبتَدَأْ prepares the reader to think repeatedly about the upcoming part. It **removes doubt, i.e. it is he/they nobody else**, it **emphasizes**.

✓ **Example:**

هذا هُوَ الحَقُّ

خبر ← هذا ... هُوَ الحَقُّ → مبتدأ

This, it is the truth.

إِنَّكَ أَنْتَ عَلَّامُ الغُيُوْبِ

خبر ← إِنَّكَ ... أَنْتَ عَلَّامُ الغُيُوْبِ → مبتدأ

Certainly you, you are the knower of the unseen.

Complex Sentence: Multiple مُبتَدَأْ More Examples

- فَمَن تَوَلَّىٰ بَعْدَ ذَٰلِكَ فَأُولَٰئِكَ هُمُ الْفَاسِقُونَ

  And whoever turned away after that – they were the defiantly disobedient. (3:83)

- إِنَّكَ أَنتَ السَّمِيعُ الْعَلِيمُ

  Indeed, You are the All-Hearing. (2:127)

- ذَٰلِكَ هُوَ الْفَوْزُ الْعَظِيمُ

  That is the highest attainment. (57:12)

[1] Translation mostly fails to capture such effects

Verbal Sentence: الجُمْلَةُ الفِعْلِيَّةُ

- Peculiar Property of verb or فِعْل
  - ✓ Unlike English every فِعْل in Arabic contains an embedded pronoun inside it. So, the action and doer is contained in one word. So, a single فِعْل can make a complete sentence (i.e. الجُمْلَةُ الفِعْلِيَّةُ or verbal sentence)
  - ✓ **Example:** In English we may write:
    He helped , we 2 words are needed
    But in Arabic:
    نَصَرَ it means: **He helped**

[1]Chapter 6, page 75

Types of Verb: فِعْل

There are three types of فِعْل in Arabic:

i. Past Tense Verb or الْفِعْلُ الْمَاضِى
ii. Present/Future Tense Verb or الْفِعْلُ الْمُضَارِعُ
iii. Imperative Verb or فِعْل الأَمر

There are other فِعْل forms that can be derived from these three types, but they are not considered separate types or categories of فِعْل . They are considered as variations of these three basic types.

Past Tense Verb الْفِعْلُ الْمَاضِى

3 parts/labels of a Verbal Sentence i.e. الجُمْلَةُ الفِعْلِيَّةُ

A. The action i.e. فِعْل

C. The details of the action i.e. مَفعُول (it has other sub-types)

Example in English:

He	ate	a burger in his room very fast
فَاعِل	فِعْل	مَفعُول
Doer	Action	Details

Past الْفِعْلُ الْمَاضِى 2 Types of Doer i.e. فَاعِل

Recall فَاعِل is the **doer** of the action. They may appear in two forms:

i. **Inside** فَاعِل **or Embedded** فَاعِل : This is the built-in pronoun every فَاعِل contains. **For instance,** كَتَبَ He wrote here, the pronoun "He" is already embedded inside the verb.

ii. **Outside** فَاعِل **or Explicit** فَاعِل : This type of فَاعِل is used when the doer is someone/something other than the embedded pronoun. (e.g. "Abdul Karim wrote" instead of "He wrote")

Outside فَاعِل or Explicit فَاعِل : Rules

The rules for an outside فَاعِل are as follows:

i. it must come AFTER the فِعْل
ii. it must be مَرْفُوعٌ
iii. the فِعْل must be in either the هُوَ form or the هِيَ form
iv. the فِعْل will MATCH the فَاعِل in GENDER (which is obvious from point iii.)

Examples:

1) نَصَرَ المُسْلِمُ	The Muslim helped.	5) نَصَرَتْ المُسْلِمَةُ	The Muslimah helped.
2) نَصَرَ المُسْلِمانِ	The two Muslims helped.	6) نَصَرَتْ المُسْلِمَتانِ	The two Muslimahs helped.
3) نَصَرَ المُسْلِمُوْنَ	The Muslims helped.	7) نَصَرَتْ المُسْلِماتُ	The Muslimahs helped.

Note: Every الجُمْلَةُ الفِعْلِيَّةُ must have a فَاعِل i.e. "Doer", whether it be inside or outside. But you cannot have both.

Outside فَاعِل or Explicit فَاعِل

- Remember: Attached Pronouns to فِعْل is **"not a Doer"** rather **it is the object of the verb**.
- **Example:** نَصَرَ i.e. He helped but نَصَرَهُمْ i.e. He helped them
- **More Examples:** خَلَقَ i.e. He created while خَلَقَكُمْ i.e. He created you(all)

  خَلَقْتَ i.e. You (Allah (swt)) created while خَلَقْتَنِي i.e. You (Allah (swt) created me)

Outside and Inside فَاعِل Exercise

➤ **DRILL 3** *Inside or outside doer? If you find an outside doer, circle it. If you find an inside doer, write out the pronoun.*

Outside and Inside فَاعِل Exercise Answer

➤ **DRILL 3** *Inside or outside doer? If you find an outside doer, circle it. If you find an inside doer, write out the pronoun.*

هُوَ

فَما رَبِحَتْ تِجارَتُهُمْ I / O	وَدَخَلَ جَنَّتَهُ I / O	قَالَ لَهُ مُوْسَى I / O
هُمَا فَاسْتَطْعَما أَهْلَهَا I / O	أَخَذَتْهُمُ الرَّجْفَةُ I / O	نَحْنُ وَاتَّبَعْنا الرَّسُوْلَ I / O

	هُمْ	هُوَ

Status of Pronouns اَلضَّمَايِرُ

There are broadly 6 cases to determine the status of a pronoun.

1. Independent Pronoun. Always مَرْفُوعٌ **Example:** هُوَ مُسْلِمٌ i.e. He is a Muslim
2. Hidden (invisible) inside فِعْل is also مَرْفُوعٌ **Example:** خَلَقَ i.e. He created
3. When attached to a حَرْفُ الْجَرِّ then it is مَجْرُورٌ **Example:** فِهِ i.e. In it
4. When attached to a حرف النصب then it is مَنْصُوبٌ **Example:** إِنَّكَ i.e. Indeed you
5. When attached to an إِسْم it is a مَجْرُورٌ **because** they form a مُضَاف and مُضَاف إِليه (i.e. possessive) **Example:** كِتَابُكَ i.e. Book OF yours
6. When attached to a فِعْل then it is a مَنْصُوبٌ (object of the verb)
   Example: خَلَقَكُمْ i.e. He created you(all)

Types of مَفعُول

Recall that the مَفعُول is defined as the details of the verb. Additional information about the فِعْل can be collected in the following questions:

- ✓ **WHO/WHAT** the action was **DONE TO**
- ✓ **WHERE** the action took place
- ✓ **WHEN** the action took place
- ✓ **HOW** the action took place
- ✓ **WHY** the action took place

Example:

Types of مَفعُول (Cont.)

Questions	مَفعُول Types
Who/What did the doer do (Object of verb)	مَفعُول بِهِ
When/Where did it happen	مَفعُول فِيهِ
Why did it happen	مَفعُول لَهُ
How did it happen	مَفعُول حَال

Recall all these مَفعُول should be مَنْصُوبٌ because they are the details of the verb (i.e. called مَنْصُوبٌ)

[1] Video 8

Types (Object of verb): مَفعُول بِهِ Example

Example: 2:63

رَفَعْنَا فَوْقَكُمُ ٱلطُّورَ We raised the mountain above you

رَفَعْنَا	We raised it is فِعْل
فَوْقَكُمُ	above you, it answers WHERE, so it is مَفعُول فِيهِ and it is مَنْصُوبٌ
ٱلطُّورَ	the mountain, it answers of WHAT, so it is مَفعُول بِهِ and it is مَنْصُوبٌ

Types (Object of verb): مَفعُول بِهِ Example (Cont.)

Example: 2:251

قَتَلَ دَاوُدُ جَالُوتَ Dawood killed Goliath

قَتَلَ	Killed it is فِعْل
دَاوُدُ	Dawood The external Doer i.e. فَاعِل and it is مَرْفُوعٌ
جَالُوتَ	Goliath, it answers of WHAT, so it is مَفعُول بِهِ and it is مَنْصُوبٌ

Types (Object of verb): مَفعُول بِهِ (with attached Pronouns) Example

- When a **pronoun is attached to a** فِعْل then it is a مَنْصُوبٌ (object of the verb)
  Example: خَلَقَكُمْ i.e. He created you(all)
- Such object of the verb is always مَفعُول بِهِ **Example:** جَعَلْنَاكُمْ we made you.
  Simply we can think it is the object on which the action falls on.
- **Note:** when the pronoun أَنْتُم is attached to a فِعْل , a helper و goes between the فِعْل and the pronoun to make the pronunciation of the word smoother.

نَصَرْتُمْ + هُ ⟵ نَصَرْتُمُوهُ

You (all) helped him

✓ Here هُ is the مَفعُول بِهِ because the action falls on him.

Types (When/Where): مَفعُول فِيهِ Example

Example: 71:5

إِنِّي دَعَوْتُ قَوْمِي لَيْلًا وَنَهَارًا I invited them day and night

إِنِّي	Indeed I It is a حَرْفُ الْجَرّ +victim
دَعَوْتُ	I invited (no outside doer is possible)
قَوْمِي	my people, it is مَنْصُوبٌ although the status is not obvious because of ي, it is a fragment of مُضَاف and مُضَاف إليه It answers of WHAT/TO WHOM, so it is مَفعُول بِهِ
لَيْلًا وَنَهَارًا	Day and night, it answers of WHEN, so it is مَفعُول فِيهِ and it is also مَنْصُوبٌ

Types (Why): مَفعُول لَهُ Example

Example: 17:31

وَلَا تَقْتُلُوٓا۟ أَوْلَـٰدَكُمْ خَشْيَةَ إِمْلَـٰقٍ And do not kill your children for fear of poverty.

وَلَا تَقْتُلُوٓا۟	Do not kill (i.e. verb فِعْل)
أَوْلَـٰدَكُمْ	Your children, it answers of WHO, so it is مَفعُول بِهِ and it is also مَنْصُوبٌ
خَشْيَةَ إِمْلَـٰقٍ	for fear of poverty. Here together it is an الإضافَة . And the fragment is مَنْصُوبٌ because of the leading إِسْم i.e. خَشْيَةَ It is the answer of WHY, so it is مَفعُول لَهُ

Types (Why): مَفعُول لَهُ Example (Cont.)

Example: 2:19 part

يَجْعَلُونَ أَصَابِعَهُمْ فِي آذَانِهِم مِّنَ الصَّوَاعِقِ حَذَرَ الْمَوْتِ

They put their fingers in their ears against the thunderclaps because of fear of death

حَذَرَ الْمَوْتِ	for fear of death. Here together it is an الإِضافَة . And the fragment is مَنْصُوبٌ because of the leading إِسْم i.e. حَذَرَ It is the answer of WHY, so it is مَفعُول لَهُ

Types (HOW): مَفعُول حَال Example

- This is an extra adjective (or it can be a clause) that describes the attitude, state or circumstance of its possessor. Asking the question, "HOW" and see if it can answer that. It behaves like an adverb in English.

Example: 89:28

ارْجِعِي إِلَىٰ رَبِّكِ رَاضِيَةً مَّرْضِيَّةً Return to your Lord, well-pleased and pleasing [to Him]

رَاضِيَةً مَّرْضِيَّةً is مَفعُول حَال **well-pleased and pleasing [to Him]**. It is the answer of HOW, so it Note: they are مَنْصُوبٌ

Components of الْجُمْلَةُ الفِعْلِيَّةُ Summary

Recall from the previous lesson, there are 3 components of a verbal sentence or الْجُمْلَةُ الفِعْلِيَّةُ

A. The **action** i.e. فِعْل
B. The **Doer** i.e. فَاعِل it must be مَرْفُوعٌ
C. The **details** of the action i.e. مَفعُول
   - ✓ It has other sub-types such as : حَال لَهُ فِيهِ بِهِ
   - ✓ Generally they are مَنْصُوبٌ but it may be any fragments including مُضَاف **and** مُضَاف إِلَيه or مَجْرُورٌ **and its victim**

Sequence in Verbal Sentence الْجُمْلَةُ الفِعْلِيَّةُ

- **Expected Sequence** of a الْجُمْلَةُ الفِعْلِيَّةُ

فِعْل (verb) ⟵	فَاعِل (external doer (if any)) ⟵	مَفعُول (details of verb)
خَلَقَ	اللَّهُ	لسَّمَاوَاتِ وَالْأَرْضَ بِالْحَقِّ
Allah created the heavens and the earth in truth (29:44)		

✓ **Note:** the order of فِعْل (verb) and فَاعِل (external doer) must not be changed i.e. فَاعِل (external doer) must appear after the فِعْل (verb). And it is always in he or she form.

Sequence in Verbal Sentence الْجُمْلَةُ الفِعْلِيَّةُ (Cont.)

- **Abnormal sequence** demands **exclusivity** (i.e. ONLY)

فَاعِل (external doer)	فِعْل (verb)	مَفعُول (details of verb)

Example: 67:29

قُلْ هُوَ الرَّحْمَٰنُ آمَنَّا بِهِ وَعَلَيْهِ تَوَكَّلْنَا ۖ He is the Most Merciful; we have believed in Him, and upon Him we have relied.

Sequence in Verbal Sentence الْجُمْلَةُ الفِعْلِيَّةُ (Cont.)

- **Abnormal sequence** demands **exclusivity** (i.e. ONLY)

فَاعِل (external doer)	فِعْل (verb)	مَفعُول (details of verb)

Example: 67:29

قُلْ هُوَ الرَّحْمَٰنُ آمَنَّا بِهِ وَعَلَيْهِ تَوَكَّلْنَا ۖ He is the Most Merciful; we have believed in Him, and upon Him we have relied.

آمَنَّا	بِهِ
فِعْل (verb)	مَفعُول (verb details)
We have believed in Him	

وَعَلَيْهِ	تَوَكَّلْنَا
مَفعُول (verb details)	فِعْل (verb)
We have relied ONLY on Him	

Sequence in Verbal Sentence الْجُمْلَةُ الفِعْلِيَّةُ (Cont.)

- When it comes to **attached pronouns as مَفعُول بِهِ** the abnormal sequence is considered as Normal/Expected Sequence and does not demand exclusivity. No mention of ONLY.

نَصَرَ	كُمْ	اللَّهُ
فِعْل (verb)	مَفعُول بِهِ	فَاعِل (doer explicit)
نَصَرَ كُمُ اللَّهُ		
Allah helped them		

Noun-based Sentence Vs. Verbal Sentence

A1.	نَصَرَ المُسْلِمُ	Muslim helped
A2.	نَصَرَ المُسْلِمَانِ	Two Muslim helped
A3.	نَصَرَ المُسْلِمُونَ	Muslims helped

Each of these are الجُمْلَةُ الاسْمِيَّة or verbal sentences **because**:

- It begins with a فِعْل or Verb and the فَاعِل **or Doer (External) comes after the فِعْل or Verb**
- The فِعْل **or verb always takes HE/SHE form** irrespective of the External Doer
- The فِعْل or Verb and إِسْم or Noun must **match only Gender**, the number is always singular.

Noun-based Sentence Vs. Verbal Sentence (Cont.)

But if the فَاعِل or Doer comes before the فِعْل or Verb as follows:

B1.	المُسْلِمُ نَصَرَ	The Muslim, he helped
B2.	المُسْلِمَانِ نَصَرَا	Two Muslims, they helped
B3.	المُسْلِمُونَ نَصَرُواْ	The Muslims, they helped

B1(f).	المُسْلِمَةُ نَصَرَتْ	The Muslim (f), she helped
B2(f).	المُسْلِمَتَانِ نَصَرَتَا	Two Muslims (f), they helped
B3(f).	المُسْلِمَاتُ نَصَرْنَ	The Muslims (f), they helped

Noun-based Sentence Vs. Verbal Sentence (Cont.2)

But if the فَاعِل or Doer comes before the فِعْل or Verb then:

B1.	المُسْلِمُ نَصَرَ	The Muslim, he helped
B2.	المُسْلِمَانِ نَصَرَا	Two Muslims, they helped
B3.	المُسْلِمُونَ نَصَرُواْ	The Muslims, they helped

- It is no longer a الْجُمْلَةُ الفِعْلِيَّةُ or Verbal Sentence, it becomes a Noun-based Sentence or الْجُمْلَةُ الاسْمِيَّة . And the Doer then becomes the مُبتَدَأْ or Subject of the sentence.
- The فِعْل or Verb part now becomes the خَبَرْ or Object of the Noun-based Sentence. **Recall** the Complex خَبَرْ may contain an entire sentence (either noun-based or verbal)
- Both إِسْم or Noun (Pronoun as well) and فِعْل or Verb must **match both Number and Gender**.

Rhetorical Benefit of B Type Sentences

B1.	المُسْلِمُ نَصَرَ	The Muslim, he helped
B2.	المُسْلِمَانِ نَصَرَا	Two Muslims, they helped
B3.	المُسْلِمُونَ نَصَرُواْ	The Muslims, they helped

Several points about B Type Sentences:

- It becomes الْجُمْلَةُ الاسْمِيَّة which is stronger than الْجُمْلَةُ الفِعْلِيَّةُ in terms of life-time.
- It **corrects somebody and gives extra emphasis** about the correction. **As an example**, suppose you are talking to somebody who are claiming "The Christians actually helped" Now you want to correct them by saying "No, that is not true, rather these are Muslims who helped"
- It **removes doubt** by correcting the other party.

Rhetorical Benefits of B Type Sentences: Example

Example: 76:28 (part)

نَّحْنُ خَلَقْنَاهُمْ ۖ It is We Who created them..

- Here نَّحْنُ is an Independent Pronoun which is a مَرْفُوعٌ
- First مَرْفُوعٌ or حرف النصب must be the مُبتَدَأٌ of a الْجُمْلَةُ الاسْمِيَّة or Noun-based Sentence.
- It says, No body else but it is We Who created you.

Rhetorical Benefits of B Type Sentences: Example (Cont.)

Example: 15:9 (part)

إِنَّا نَحْنُ نَزَّلْنَا ٱلذِّكْرَ Indeed, it is We who sent down the message [i.e., the Qurn]..

نَزَّلْنَا ٱلذِّكْرَ	نَحْنُ	إِنَّا
We sent down the message	We	Surely we
Indeed, it is We who sent down the message		

✓ Note here "WE" have been repeated 3 times, which is hard to reflect in translation

Question Words

- In Arabic, most question words have no grammatical effect and can simply be added to the beginning of a sentence (both verbal and noun-based).
- Follwongs are some Question Words commonly used in Quraan

أَ هَلْ	أَيُّ	كَيْفَ	لِمَاذَا or لِمَ	أَيْنَ	مَن	ما	أَيَّانَ	أَنَّى
did	which	how	why	where	who	what	when	how/from where

Note: The question word أَ is sometimes attached together with لَمْ as أَلَمْ to imply a **Negative Questining** (i.e. Didn't we/I...)
