Program: BSc. SWE, 1st Semester

Date: Friday (Morning), 1 November 2024

ISLAMIC UNIVERSITY OF TECHNOLOGY (IUT)
ORGANISATION OF ISLAMIC COOPERATION (OIC)
DEPARTMENT OF TECHNICAL AND VOCATIONAL EDUCATION (TVE)

Mid Semester Examination
Course No: HUM 4147
Course Title: Technology, Environment and Society

Winter Semester (2023-2024)
Time : 2.00 Hrs.
Full Marks : 120

There are 4 (four) questions. Answer all the questions.
Figures in the right margin indicate marks of the questions.

1.	a)	Explain how society (people) is dependent on technology, and environment. You should support your explanation through schematic diagram showing their relationship of their interdependency.	10 (CO2, C2, PO6/PO7)
	b)	Illustrate the important creations/innovations of technology (the history of technology timeline) from ancient times till today.	10 (CO2, C2, PO6/PO7)
	c)	Mention any two notable technologies along with their contributions to society/ human and/or economic development as well as any negative impact they may have.	10 (CO2, C2, PO6/PO7)
2.	a)	The environment has three important constituents (or worlds). Briefly describe these constituents. Do these three 'worlds' exist in total isolation from one another?	15 (CO1, C2, PO7)
	b)	The three constituents (components) of the environment give rise to four important zones. What are they? Explain (with diagram) their relationship.	15 (CO1, C2, PO7)
3.	a)	Define the term ecology according to Hackel and Tansley.	05 (CO1, C2, PO7)
	b)	How do a biome is defined? How many **major biomes are there if we divide** the earth's land areas and what are they?	10 (CO1, C2, PO7)
	c)	Illustrate the biomes of the earth.	15 (CO1, C2, PO7)
4.	a)	State and explain the definition of sustainable development given by the United Nations World Commission on Environment and Development.	10, (CO3 (C2, PO7)
	b)	The Need for sustainable development issue has become visible after several research findings have been published including the one by a team of scientists from MIT in 1972. Therefore, to achieve sustainable development on our earth immediate measures are to be taken by us (the society). Describe five important measures that we can adopt for sustainable development.	10, (CO3, C2, PO7)
	c)	What is Environmental Stewardship? Mention and describe the core principles of environmental stewardship.	10 (CO3, C2, PO7)
