Lecture 1

1

SWE 4101

Introduction to Software Engineering

Tanjila Alam Sathi
Lecturer,
Department of CSE,
Islamic University of Technology

Outline

2

- Computer
- History of Computation
- Data Processing
- Components of a Computer System

Computer

3

- Early days the computer was not a machine !!!
- The word Computer comes from the word “Compute”.
- Thereby, a computer is a device that can perform arithmetic and logical operation at high speeds.
- A computer is also known as data processor.

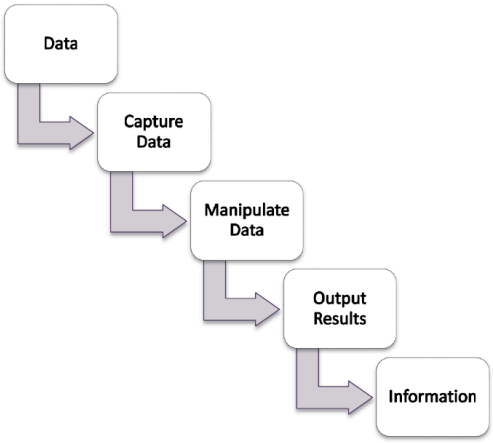

History of Computer

7

- Modern Computer
  - Turing Machine
  - Universal Turing Machine
  - Electromechanical Computer
  - Stored-program Computers.

Data Processing

8

Components of a Computer System

9

- A computer system consists of –
  - Hardware - The **hardware** components of a computer system are the electronic and mechanical parts.
  - Software - The **software** components of a computer system are the data and the computer programs
